Solution to Riddle

Announcements

R.A. Application forms for fall 2023 may be picked up in DSC 205.

Dorm Room Check: January 26th

Any full time female ALC student who would like to be considered to represent ALC in the Mt. Laurel Pageant during the Memorial Day Weekend can

pick up an application form and information from Ms. Stumbo, DSC 205

Men's Open Dorm, February 2nd.

Representatives from the Social Security Administration will be in the DSC foyer from 11:00 a.m.-1:00 p.m. on Monday, January 23rd to speak to interested graduating seniors regarding jobs with the department. These would be federal jobs with good benefits. Interested students can see Nathan Hall, Director of Career Services, for more information.

Riddle

????

Halfway Glass

You are in a room with a glass of water. The glass is a right cylinder that looks like it is half-full, but you are not quite sure. What is the most accurate way, without spilling any water, to determine whether the glass is half-full, more than half-full or less than half-full?

Solution on the last page.

Convocations for January/February

January 24 (T)	Blood Drive 11:00 a.m.-3:00 p.m., Cushing Hall Register online for an appointment
February 7 (Th)	Zack Hall, TV Producer 1:00 p.m., CAC
February 14 (T)	Faculty/Staff Basketball Game 1:00 p.m.
February 21 (T)	Cody Howard 1:00 p.m., CAC
February 28 (T)	James v. Mongiardo Speech Competition 1:00 p.m., CAC

The greatest leader is not necessarily the one who does the greatest things. He is the one that gets the people to do the greatest things.

Ronald Reagan

Of all bad things by which
mankind are cursed,
Their own bad tempers surely
Are the worst.

—Richard Cumberland

But God demonstrates His own love toward us, in that while we were still sinners, Christ died for us.

Romans 5:8

Come and get it!

BIG BLUE SLAM 2023

BLOOD DRIVE

Tuesday, January 24
11 a.m. - 3 p.m.

Cushing Hall
Auditorium
100 Purpose Drive
Pippa Passes, KY 41844

Blood donors will receive a "Basketball School" long-sleeve shirt and be entered to win two lower-level tickets to the UK-Florida men's basketball game on Feb. 4 in Rupp Arena.

Scan this QR code to make an appointment:

kybloodcenter.org 800.775.2522 Please bring photo ID

Appointments preferred. Walk-ins welcome. Drive details subject to change. Please check kybloodcenter.org prior to donating. Donors with appointments will be notified of changes.

POST DATE: SPRING SEMESTER 2023

NOTICE TO RESIDENTS Natural Gas Public Awareness Program

Everyone in our community is familiar with our local gas department but some may not realize that natural gas utilities receive their gas from natural gas pipeline systems. The purpose for these underground energy portals is to safely transport this vital fuel to heat homes and power businesses and vital service institutions. The transportation of natural gas through these pipelines is one of the safest methods for transporting energy, although accidents can occur. One of the ways accidents occur is when someone digs in the vicinity of a gas pipe and cuts the line. The Kentucky One-Call system is an organization to prevent these types of accidents. Dialing 811 and providing information to the operator will ensure that local utilities, including gas utilities, will mark their lines. Another way accidents occur is when leaks from pipelines, appliances or other gas-related equipment occur. Natural gas is a colorless, odorless fuel that is lighter than air. Because it is odorless, a harmless odorant, usually smelling like rotten eggs, is added to the gas so that the presence of gas may be detected. Leaks may be detected by noticing the following:

- 1) Smelling gas (odorant) near a meter or pipeline, sometimes after excavation work
- 2) A hissing or roaring sound caused by escaping gas
- 3) Dead or discolored vegetation in an otherwise green environment
- 4) Blowing dirt, grass or leaves
- 5) Steady bubbling in a wet, flooded areas or other water environment
- 6) A fire in or near an appliance or gas pipe
- 7) Unusual noise at an appliance
- 8) Unusual behavior of the flame at an appliance burner

In the event of a detected gas leak, the following should take place:

- 1) Leave the vicinity immediately (without making calls or operating light switches)
- 2) Evacuate others in the vicinity
- 3) Turn off and abandon cars or equipment in the vicinity
- 4) Do not start a car or other equipment in the vicinity
- 5) Do not operate any electrical or electronic equipment in the vicinity
- 6) Do not light a match or use another source of ignition
- 7) Do not smoke
- 8) Warn others to stay away from the area
- 9) Stay away from open flames
- 10) Wait for maintenance, emergency or utility personnel to put out flames

To report a leak, call the Alice Lloyd College Physical Plant Office: On-Campus Ext 6130, Off-Campus 606-368-6130.

In keeping the public safe from the potential hazards of natural gas, such as fire or explosion caused by leaks, Alice Lloyd College, assisted by Moore's Pipeline Service is required to perform an annual corrosion control survey. The distribution piping that is made of steel requires a survey to ensure that the pipe is not rusting or being damaged by the soil. A leak survey is also performed monthly to find leaks in piping and related gas equipment.

Additionally, the maintenance staff performs periodic sniff tests to ensure that odorant can be detected in the gas. The maintenance staff also makes periodic checks for gas leaks and monitors each gas meter. The agency that oversees all natural gas safety related activity for our distribution piping is the Kentucky Public Service Commission. They can be reached at 502-364-3940.

To obtain further information about natural gas you may contact Columbia Gas or this office.

SOLUTION TO THE RIDDLE:

The most accurate way to determine whether the glass is half-full, more than half-full, or less than half-full is by tilting the glass sideways until the water touches the lip of the glass. Because the glass is a right cylinder, you can look at where the water towards the bottom of the glass is to determine how much water there is. If the water perfectly intersects the corner of the bottom of the glass, the glass is more than half-full. And if the water level at the bottom of the glass is below the corner, the glass is less than half-full.

Nor height nor depth, nor any other created thing, shall be able to separate us from the love of God which is in Christ Jesus our Lord.

Romans 8:39
