Five Hats in a Box

SOLUTION TO THE RIDDLE:

The only configuration that would allow for this situation is if Bob and Cal are both wearing blacks. If Alan were to see two white hats in front of him, he would be able to deduce that he is wearing a black hat because there are only two white hats in the box. In all other instances he must respond with a “no”. If Bob were to see a white hat in front of him he would be able to deduce that he is wearing a black hat because he would know that both him and Cal couldn't be wearing white hats otherwise Alan would have known the color of his hat. Because of all this, Alan and Bob do not know the color of their hats and Cal can be sure about the color of his own hat, which is black.

**Thou compassest my path and my lying down,
and art acquainted with all my ways.**

Psalm 139:3

**Success is not the key to happiness. Happiness is
the key to success. If you love what you are doing,
you will be successful.**

Herman Cain

**Character cannot be developed in ease and
quiet. Only through experience of trial and
suffering can the soul be strengthened.**

Helen Keller
