Riddle Solution

Flipping Two Coins

There are four possible outcomes when you flip two coins: heads and heads, tails and tails, heads and tails, or tails and heads. Because at least one of the coins is tails, that leaves you with only three possible outcomes. Out of these three outcomes only one of them satisfies the condition of both coins coming up tails, therefore the probability for both coins being tails is 1/3.

Pleasant words are as an honeycomb, sweet to the soul, and health to the bones.

Proverbs 16:24

What lies behind you and what lies in front of you, pales in comparison to what lies inside of you.
